Separate paging is given to this Part in order that it may be filed as a separate compilation

PART III—SECTION 2

Notifications and Notices issued by the Patent Office relating to Patents and Designs

THE PATENT OFFICE

Patents and Designs

Calcutta, the 6th March 1954

Special Notice

It is hereby notified for general information that the following Groups of Abridgments of Patent Specifications (Nos. 25,001 to 30,000) have been published and copies thereof are available for sale with the Manager of Publications, Civil Lines, Delhi, at Re. 1/- per copy.

Copies are also available for sale locally at the counter on cash payment with the Govt. of India Book Depot, 8, Hasting Street, Calcutta :—

- (1) Group IV—Chemical Processes and Non-Metallic Elements.
- (2) Group VI—Filtering and Straining Liquids.
- (3) Group XIV—Food Production.
- (4) Group XVI—Cigars, Cigarettes and Smoker's Appliances and Tobacco Manufacture.
- (5) Group XVIII—Tea Manufacture.
- (6) Group XX—Spinning and Twisting Machines for Production of Yarns and Threads.

CORRIGENDUM

(1)

In the Gazette of India, Part III, Section 2, dated the 30th January 1954, in page 19, column 1, under the heading "Applications Accepted" :—

- (1) for No. "48542" read No. "49542".
- (2) for No. "49789" read No. "48789".

(2)

In the Gazette of India, Part III, Section 2, dated the 6th February 1954, in page 25, column 1, under the heading "Applications Accepted" :—

for No. "79782" read No. "49782".

(3)

In the Gazette of India, Part III, Section 2, dated the 27th February 1954, under the heading "Renewal Fees Paid" :—

for No. "35636" read No. "39636".

and

for No. "35936" read No. "39936".

Applications for Patents

The dates shown in crescent brackets are the dates claimed under Section 78-A of the Act.

The 18th February 1954

51300. American Cyanamid Company. Process of granulating powder and product. (13th May 1953).
51301. Westinghouse Brake and Signal Company Limited. Improvements relating to apparatus for the regulation of the voltage across a common load circuit supplied from two or more sources of direct current. (31st March 1953).
51302. Westinghouse Brake and Signal Company Limited. Improvements relating to apparatus for the

regulation of the voltage across a common load circuit supplied from two or more sources of direct current. (31st March 1953).

51303. A Reyrolle and Company Limited. Improvements relating to current transformers. (25th February 1953).
51304. Bengers Limited. Improved therapeutic preparations of iron. (27th February 1953).
51305. Dronsfield Brothers Limited. Improvements in or relating to the stripping of pirns and the like. (10th October 1953).
51306. G. H. Heetbrink and Dr. C. V. E. Boas. An indicator for determining the capability of conception of women.
51307. S. M. Shamsie. Improvements in or relating to cocks. [Addition to No. 50793].
51308. C. T. Patira. Improvements in or relating to purses, pouches or the like.
51309. Standard Telephones and Cables Limited. Improvements in or relating to electrical information storage arrangements. (20th March 1953).
51310. Standard Telephones and Cables Limited. Improvements in or relating to intelligence storage equipment. (20th March 1953).
51311. Standard Telephones and Cables Limited. Improvements in or relating to equipment for performing a complex sequence of operations. (20th March 1953).

The 19th February 1954

51312. R. R. Chouhan. "Jacketed" "Bumb cum chula".
51313. S. R. Subba Rao. Kannada typewriter key board.
51314. Dunlop Rubber Company Limited. Improvements in or relating to machine belting and the manufacture thereof. (24th February 1953).
51315. Dunlop Rubber Company Limited. Impregnation of textile materials.
51316. Imperial Chemical Industries Limited. New and improved ester-salts of phosphoric acid. (24th April 1953).
51317. Imperial Chemical Industries Limited. Improvements in or relating to blasting charges. (30th April 1953).
51318. British Insulated Callender's Cables Limited. An improved means for supporting overhead traction conductors. (14th April 1953).
51319. Klockner-Humboldt-Deutz A.G. A method of smelting ore, particularly iron ore. (2nd February 1954).
51320. Yardney International Corp. Improvements in or relating to electric batteries. (20th February 1953).
51321. C. A. Parsons and Company Limited. Improvements in and relating to heat exchangers. (20th February 1953). [Addition to No. 49438].
51322. T. M. M. (Research) Limited. Improvements in roller-gill textile drawing frames. (24th February 1953).

51323. A. Sanghi. Improvements in or relating to tube-well.
51324. C. T. Patira. Improvements in or relating to purses, pouches or the like.

The 20th February 1954

51325. The English Electric Company Limited. Improvements relating to engine-electric transmission systems. (27th February 1953).
51326. The Distillers Company Limited. Purification of penicillin. (7th March 1953).
51327. British Celanese Limited. Improvements in the manufacture of organic substances of very high molecular weight. (24th March 1953).

The 22nd February 1954

51328. M. A. Chaudary. Improvements in and relating to spinning and weaving fabric from fibres. [Addition to No. 49235].
51329. Colgate-Palmolive Company. Stabilized anti-prespirant cosmetic cream.
51330. T. M. M. (Research) Limited. Improvements in the drafting apparatus of textile spinning and like machines. (27th February 1953).
51331. Boots Pure Drug Company Limited. New sulphur-containing compounds. (2nd March 1953).
51332. Polygram Casting Co. Limited. Improvements in methods of and apparatus for producing shell moulds. (26th February 1953).
51333. Ciba Limited. Manufacture of new piperidines.
51334. Ciba Limited. Manufacture of new products of enzymatic oxidation.
51335. Ciba Limited. Manufacture of new pregnenals and derivatives thereof.

The 23rd February 1954

51336. E. D. Phillips. Automatic self locking clamp for rail-joints in railway permanent way against sabotage and rail-anchor combined against the creep of rails.
51337. Bholanath Ghosh. An automatic tea sorting and upgrading machine.
51338. The Dow Chemical Company. Improvements in or relating to method of producing electroplates of nickel on articles of magnesium and magnesium-base alloys.
51339. British Cellophane Limited. Improvements in or relating to the production of moisture proof regenerated cellulose films.
51340. H. M. Yeatman. Improved portable water heater for use with flat-topped cooking stoves. (4th March 1953).
51341. Ciba Limited. Manufacture of amides.

The 24th February 1954

51342. Rolladenfabrik A. Griesser A.-G. Improvements in or relating to venetian blind.
51343. ALWEG-Forschung-Gesellschaft mit beschränkter Haftung. Supporting structures, more especially for monorail systems.
51344. The English Electric Company Limited. Improvements relating to dynamo-electric machines. (6th March 1953).
51345. H. M. Yeatman. Improvements in and relating to portable water heaters for use with flat-topped cooking stoves. [Addition to No. 51340].
51346. Dipl. Inc. A. Kreidler. Improvements in or relating to motor cycles.
51347. Marchon Products Limited. Improvements in or relating to powders. (25th February 1953).
51348. E. Kiefer. A stretchable link band.
51349. E. C. E. Hemsted. Improvements in and relating to tampons, wads or the like, and materials therefor. (30th December 1952). [Divisional date, July 20, 1953.]
51350. E. C. E. Hemsted. Improvements in and relating to tampons, wads or the like, and materials therefor. (19th December 1952). [Addition to No. 49940.]. [Divisional date, July 20, 1953.].

Alteration of Date

50836. Ante-dated. 24th July 1952, under Section 5 of the Act.

Applications Accepted

Notice is hereby given that all persons interested in opposing the grant of patents on any one of the applications referred to below may at any time within four months of the date of this Gazette of India give notice to the Patents Office in the prescribed form No. 6 of the Indian Patents and Designs Rules, 1933 of such opposition.

A limited number of printed copies of the specifications in the following list will be available for sale from the Manager of Publications, Civil Lines, Delhi, and also on cash payment at the counter of the Government of India, Central Book Depots, 8 Hastings Street, Calcutta, in the course. The price of each specification is Rs. 2 (postage extra, if sent out of India). Requisition for the supply of printed specifications should be accompanied by the numbers of the specifications as shown in the following list.

If required typed copies of the specification together with copies of drawings, if any, can be supplied by the Patent Office, on payment of the necessary charge which may be ascertained on application to the office.

The dates shown in crescent brackets are the dates allowed under Section 78-A of the Act.

47350. Standfast Dyers and Printers Limited. Improvements relating to dyeing of textile materials. (25th May 1951). Accepted on 19th February 1954.

Impregnating the fibre with an alkaline aqueous liquor, heating the impregnated fibres, and reacting with the liquor an organic ester.

47370. (Mrs.) W. M. Waller and P. H. Waller. Improvements in and relating to copper-base alloys and the production thereof. (28th May 1951). Accepted on 24th February 1954.

Consisting of 4-22.5 per cent Ni, 4 to 20 per cent, of Zn, 0.5 to 3.5 per cent. cadmium, and not less than 55 per cent of copper, nickel not exceeding twice the quantity of zinc.

47900. Dunlop Rubber Company Limited. Improvements in printers' blankets. (11th October 1951). Accepted on 19th February 1954.

Comprising a rubberised fabric incorporating a fabric ply of pre-stretched warp components and having at most a low weft content.

47973. Dunlop Rubber Company Limited. Containers for storage of liquids. Accepted on 20th February 1954.

Comprises a spherical shaped wall of flexible material with a vent at the top and a buoyant member attached to said vent for maintaining the vent above the surface of the liquid.

48168. Ruhrchemie Aktiengesellschaft and Lurgi Gesellschaft für Warmetechnik m.b.H. Process for the catalytic reaction of gases containing carbon monoxide. Accepted on 20th February 1954.

Part of CO is oxidised with steam to yield CO₂ and hydrogen, and the resulting gas mixture is subjected to effect hydrogenation of carbon monoxide.

48312. Compagnie Internationale des Pieux Armes FRANKIGNOUL. Method and device for forming reinforced foundation piles with an enlarged base. Accepted on 23rd February 1954.

A rigid body secured to upwardly extending rigid members located at predetermined distance below foot of driving tube and concrete expelled laterally, with the body as acting deflector, to form enlarged base.

48313. Compagnie Internationale des Pieux Armes FRANKIGNOUL. Machine movable in all directions for driving piles and the like. Accepted on 24th February 1954.

Machine platform and supporting plate secured to two elements of vertical jack, a frame with rollers engaging circular track on supporting plate, angular displacement between the frame and platform during their relative vertical movement is prevented and enclosure longitudinally movable affording support for the machine when the plate is lifted.

48433. Georg Fischer Aktiengesellschaft. Container for a centrifuging arrangement for removing the surplus zinc from metal components coming from a dipping bath. Accepted on 18th February 1954.

Container accommodating the metal components provided with device to hold them in the position in which they are charged into the container.

48858. Ontario Research Foundation. Clayless refractory products. (20th February 1952). Accepted on 24th February 1954.
Comprising in combination vegetable ash and having silica present in the form of cristobalite and tridymite forms and lime present in an amount of less than 20 per cent. by weight.
48860. American Cyanamid Company. Improvements relating to the preparation of cyanamide and cyanamide polymers from urea. (4th March 1952). Accepted on 20th February 1954.
Comprises heating urea in presence of a silica gel catalyst at a temperature of 275-650°C at atmospheric pressure.
49001. M. Shaw. Garments adapted to give the wearer buoyancy. (8th April 1952). Accepted on 19th February 1954.
Incorporating buoyant material enclosed in water-impermeable sheet materials.
49257. F. Ashton. Improvements in or relating to fibre drawing. Accepted on 23rd February 1954.
Feeding the fibrous material between drafting rollers while retaining the twist in the fibres upto the point of full elongation.
49344. The Carborundum Company. Silicon nitride-bonded silicon carbide articles and manufacture thereof. Accepted on 19th February 1954.
Firing a mixture of silicon carbide and silicon in an atmosphere of nitrogen.
49388. Morris Motors Limited. Improvements relating to weather-excluders and the like for doors and windows. (8th May 1952). Accepted on 23rd February 1954.
To one of the hinge like limbs the beading is rooted whilst the other limb is clamped by U shaped spring clips.
49408. Godrej and Boyce Manufacturing Company Limited. The improvements in or relating to door latches or locks. Accepted on 19th February 1954.
Which incorporates a locking device to automatically lock the shot latch bolt when the latter is retracted by pressure on its head and then released.
49455. Bleachers' Association Limited. C. S. Parker and A. Melville. Improvements in or relating to ornamentation of fabrics. (2nd July 1952). Accepted on 18th February 1954.
By shrinking the fabric in atleast one region by lengthwise compression and superficial restraint, while allowing relative freedom to the fabric in a region adjoining the region being shrunk.
49558. Schlage Lock Company. Improvements in or relating to face plate for a door lock. Accepted on 22nd February 1954.
Comprising an apertured sheet having a recess encompassing the aperture the bottom of the recess being inclined to the sheet.
49625. British Telecommunications Research Limited. Improvements in or relating to sampling arrangements for obtaining pulses from an input waveform. (27th May 1952). Accepted on 24th February 1954.
A pair of valves with their anodes and grids cross-connected and control wave applied to grid of one of the valves through a rectifier, the resulting potentials of the anodes controlling cathode follower output valves from whose cathodes desired outputs are obtained.
49626. British Telecommunications Research Limited. Improvements in or relating to high-speed storage devices of the magnetic drum type. (27th May 1952). Accepted on 24th February 1954.
Magnetic drum with tracks each of which having a reading head, a signal receiver common to all the reading heads with which it is successively associated in turn by distributing equipment synchronised with the movement of the drum.
49627. British Telecommunications Research Limited. Improvements in or relating to high-speed storage devices of the magnetic drum type. (27th May 1952). Accepted on 24th February 1954.
Magnetic drum type storage device on which data is registered to control an operation depending on a subsequently recorded instruction within the scan interval corresponding to the data, two reading heads being provided one of which operating earlier than the other.
49988. David Etchells and Sons Limited. Improvements in oil-burning furnaces. (11th August 1952). Accepted on 23rd February 1954.
Atomising nozzle assembly feeds the fuel into the bore of a tubular member of refractory material positioned in the rear of the combustion chamber and in front of nozzle.
50051. Standard Telephones and Cables Limited. Improvements in or relating to the formation of sinterable ceramic and the like mouldings. (11th August 1952). Accepted on 24th February 1954.
Mixture comprising a sinterable material a thermosetting moulding vehicle and a plasticiser.
50066. T. J. Smith and Nephew Limited. A burn and wound dressing. Accepted on 23rd February 1954.
Combination of a rolled medicated textile strip is disposed within a tubular core and an elastic textile and non-absorbent wadding "strips are provided".
50195. The General Electric Company Limited. Improvements in or relating to apparatus for detecting the presence or absence of a conducting or magnetic object. (10th April 1953). [Addition to No. 48196.]. Accepted on 20th February 1954.
Providing an electric transformer having a winding arranged to be energised with alternating current and two windings mounted on the same core such that electromotive forces in the windings become unbalanced to provide a differential signal.
50331. A. Kundert. Improvements in or relating to refrigerating plant. Accepted on 23rd February 1954.
A compression refrigerating system in which a portion of cooling fluid having the compressor is used to a frame near refrigerating plate.
50551. The Dorr Company. Continuously operating clarifier tanks for sewage liquids containing gritty and non-gritty solids. Accepted on 24th February 1954.
Combination of a cylindrical feed well, peripheral overflow launder, discharge means, rotary rakes and concentric annular grit intercepting structure in path of income solids.
50586. S. Izchaki and "NAAN" Kevutzat Hanoar Haoved Lehiyashvut Shitufet Be'Eravon Mugbal. Improvements in sprinklers. Accepted on 22nd February 1954.
Comprising a nozzle unit with at least two nozzles, an oscillating lever, a baffle plate at the head end of the lever and a baffle at the tail end of the lever.
50596. Imperial Chemical Industries Limited. Improved process for the manufacture of unsaturated dinitriles. (28th November 1952). Accepted on 22nd February 1954.
Disubstituted fumaric and maleic dinitriles are prepared by heating a compound of the formula $R_1-CH(CN)-C(CN)-R_2$ wherein R_1 and R_2 represent an alkyl, alkenyl, cycloalkyl or aralkyl radical and R_2 and acyl radical.
50626. Shree Krishna Ltd. Improvements in or relating to buckets and like containers. Accepted on 22nd February 1954.
The bucket is characterised by a depression formed in its base, the depression bulging towards the inside of the container.
50633. Ecrofner and Partners Limited. Improvements in moulding cores. (26th November 1952). Accepted on 18th February 1954.
Top, bottom and side members linked with a rod which can be moved axially for effecting and collapsing the core.
50779. The Permutit Company Limited. Improvements relating to the control of the mixing of liquids. (9th December 1952). Accepted on 24th February 1954.
Ratio between conductivity of effluent water from hydrogen-ion-exchange material and that of blended water is maintained constant by means of electrical system.

50812. Dronsfield Brothers Limited and S. W. Dronsfield. Improvements in or relating to the grinding of the card clothing of carding engines. (20th June 1953). Accepted on 16th February 1954.

Driving the carding engine and the grinders at appropriate relative grinding by portable power plant through flexible driving shafts independently of the source of power normally applied to drive the carding engine.

50818. Monsanto Chemicals Limited. Improvements relating to polystyrene plastic materials. Accepted on 23rd February 1954.

Mixing polystyrene and 20 per cent. of its weight of unvulcanised natural rubber, each in solid divided form and blending them by softening.

50836. British Telecommunications Research Limited. Electrical signalling systems. (25th July 1951). [Divisional date, July 24, 1952]. Accepted on 22nd February 1954.

Comprising control arrangements effecting counting by successively altering registrations on the drum at predetermined intervals and further control arrangements responsive to the registration reaching a predetermined value to terminate the transmission of impulses.

Printed Specifications Published

A limited number of printed copies of the undernoted specifications are available for sale from the Manager of Publications, Civil Lines, Delhi, or on cash payment at the counter of the Government of India, Central Book Depot, 8, Hastings Street, Calcutta, at two rupees per copy :—

44606. 45068. 45088. 45193. 45220. 45238. 45406. 45609. 45661. 45758. 45872. 46036. 46338. 46339. 46389. 46440. 46899. 46971. 46972. 47010. 47031. 47056. 47135. 47145. 47146. 47199. 47246. 47260. 47281. 47283. 47354. 47355. 47375. 47397. 47405. 47454. 47471. 47489. 47490. 47521. 47549. 47607. 47624. 47626. 47647. 47759.

44832. 44837. 44838. 45407. 45687. 45756. 45781. 45800. 45851. 45852. 45854. 45863. 46012. 46083. 46135. 46196. 46199. 46486. 46793. 46941. 46945. 46946. 46956. 47138. 47264. 47333. 47339. 47343. 47352. 47358. 47380. 47482. 47512. 47609. 48174. 48210. 48215. 48224. 48296.

Patents Sealed

46420. 46553. 46735. 46916. 46928. 47007. 47024. 47033. 47054. 47195. 47210. 47211. 47273. 47301. 47660. 47743. 47787. 47991. 48214. 48248. 48270. 48695. 48825. 48826. 48902. 48978. 49032. 49116. 49142. 49230. 49262. 49326. 49340. 49365. 49373. 49394. 49409. 49552. 49599. 49669. 49677. 49680. 49702. 49827. 49865. 49914. 49939. 50105.

Amendment Proceedings

The amendment proposed by The Carborundum Company in respect of Patent No. 49186 as advertised in the Gazette of India, Part III, Section 2, dated the 31st October 1953 has been allowed.

Renewal Fees Paid

21531. 21730. 22729. 23613. 23815. 24049. 24062. 25227. 25695. 26201. 26233. 26449. 26764. 27277. 27333. 27345. 27969. 27992. 27993. 28092. 28783. 28896. 29493. 29564. 30700. 32079. 32103. 32211. 32215. 32363. 33022. 34224. 34311. 34329. 34330. 34377. 34582. 34648. 34750. 34790. 34835. 34969. 35367. 35541. 35719. 36940. 36948. 37088. 37090. 37091. 37148. 37212. 37222. 37224. 37252. 37272. 37288. 37357. 37449. 37456. 37896. 38124. 38280. 38571. 38706. 38864. 39105. 39201. 39228. 39231. 39335. 39381. 39389. 39390. 39455. 39524. 39568. 39632. 39649. 39702. 39703. 39704. 39707. 39708. 39709. 39711. 41019. 41020. 41038. 41104. 41245. 41317. 41365. 41371. 41414. 41603. 42732. 42749. 42790. 42863. 42896. 42902. 42903. 42904. 42924. 42940. 43016. 43022. 43023. 43028. 43058. 43080. 43130. 43155. 43180. 43208. 43228. 43657. 43787. 44589. 44734. 44787. 44890. 45013. 45051. 45142. 45147. 45545.

RENEWAL FEES PAID in respect of State Patents under provision of Section 80 of the Indian Patents and Designs Act.

Travancore Patent

CLXXIX.

Cessation of Patents

27015. 36154. 36162. 36163. 36205. 38589. 38590. 38591. 48592. 38598. 38602. 40508. 40580. 40581. 40586. 40589. 40590. 40591. 42268. 42291.

Registration of Designs

The following designs have been registered. They are not open to inspection for a period of two years from the date of registration except as provided for in Section 50 of the Indian Patents and Designs Act.

The date shown in each entry is the date of registration of the design included in the entry.

The dates shown in crescent brackets are the dates allowed under Section 78-A of the Act.

Class 1 No. 78018. EUREKA TUPE FOUNDRY, LTD., 21, Giribabu Lane, Calcutta 12, Indian, "Bengali type faces", January 22, 1954.

Class 1 No. 78129. GAZI MOHD. SADIQ ALI Son of Amjad Ali Khan, Sohbatia Bagh, Raja Bazar, Lucknow (Uttar Pradesh), Indian Subject, "Ring", February 2, 1954.

Class 3 No. 76831. Mr. CHUNILAL JAGJIVAN PANCHAL, C/o Prakash Metal Works, 5D, 2nd Dubash Lane, Vithalbhai Patel Road, Bombay 4, (India), Indian Subject, "Calendars (Manufactured out of Plastics)", September 16, 1953.

Class 3 No. 78001. BRIGHT BROTHERS LTD., Incorporated in India, of 156A Tardeo Road, Bombay 7, "Egg beater", January 18, 1954.

Class 3 No. 78076. BRIGHT BROTHERS LIMITED, Incorporated in India, 156A, Tardeo Road, Bombay 7, "Holder of book matches", January 28, 1954.

Class 3 No. 78138. DUNLOP RUBBER COMPANY LIMITED, a British Company, of Fort Dunlop, Erdington, Birmingham, England, "A tyre for a vehicle wheel", February 3, 1954. (7th October 1953).
